

Wyatt Bowen

294 Robin Woods Drive Lexington, SC 29073
whbow14@gmail.com • +1 (803) 738-6867

Education

University of South Carolina, Columbia, SC

Bachelor of Science in Computer Engineering
Honors College Member • Dean's Scholar
Expected Graduation: May 2029

White Knoll High School, Lexington, SC

High School Diploma, May 2025
GPA: 4.0 (4.0 Scale)
Honors: AP Scholar; South Carolina Junior Scholar

Skills

Programming Languages: Python, JavaScript, Linux/Unix
Technical Skills: Object-Oriented Programming, Basic Algorithm Design, Debugging, Software Development Fundamentals, Embedded Systems & Hardware Interfacing (Raspberry Pi, GPIO sensors)
Tools & Platforms: General Computer Applications, Problem-Solving with Code, Version Control (Basic Git Familiarity)

Experience

Roofing Laborer

Bowen's Quality Roofing & Sheet Metal, Lexington, SC

May 2018 – Present

- Installed asphalt shingle, tile, and metal roofing systems for residential and commercial projects
- Utilized hand and power tools to complete tasks efficiently and safely
- Loaded, organized, and transported materials to support timely project completion
- Followed safety protocols while working at varying heights
- Identified and resolved structural and material issues to ensure long-lasting results

Additional Leadership & Activities

Student Government Association (SGA) – Auxiliary Councilman

White Knoll High School, Lexington, SC

2024 – 2025

- Represented student body interests and contributed to school decision-making initiatives
- Collaborated with peers and faculty to organize school events and activities

Palmetto Boys State Delegate

2024

- Participated in a statewide leadership and government simulation program
- Collaborated with peers to develop policies and engage in civic decision-making

Varsity Baseball & Football Player

White Knoll High School, Lexington, SC

2020 – 2025

- Demonstrated teamwork, discipline, and time management while balancing academics and athletics
- Contributed to team success through consistent participation and performance

Technical Experience

- Engineered motion control logic for a sand-printing robot by modeling letter shapes with piecewise parametric equations
- Generated coordinate and slope data to enable precise, time-dependent nozzle control and material placement
- Applied mathematical modeling and programming to ensure accurate and consistent system output
- Developed interactive programs and games (e.g., Battleship, Guess Who, Risk) using Python
- Applied problem-solving and logical structuring to implement game mechanics and user interaction
